📄 PROFILE

I am a fourth Year Undergraduate student at SLIIT with robust problem-solving skills. Over the course of my studies, I have developed strong leadership skills, enjoy collaboration and teamwork and have good communication skills. I'm interested in learning more about new technology. In addition, I am the type of a person who would never pass up even a minor opportunity. As a result, whenever I get the opportunity, I will take advantage of it, and I will learn from my failures in order to improve my future successes.

🧠 SKILLS

Programming Languages

Java , C,C++,Python (C# , .NET (Beginner))

Other Languages

PHP,CSS,Html,JS

Database

MongoDb , Mysql

Frameworks

React ,Node.js,Bootstrap, JQuery

General Knowledge

Aws Cloud, Google Cloud,Machine Learning,Digital Marketing,Git,etc

Research and Development

🌐 LANGUAGES

English

Sinhala

Tamil

📁 PROFESSIONAL EXPERIENCE

South Eastern University of Srilanka

Software Engineer Intern

December 2021 – April 2022 | Oluvil, Sri Lanka

I had a software engineer internship of 4 months at a South Eastern university of Srilanka . that internship was called Score Youth Activity (SYA) USAID Project base. During that period I had a Experience in developing Full-Stack web applications and mobile apps.

🎓 EDUCATION

Bsc (hons) Information Technology Specialization Software Engineering

Srilanka Institute of Information Technology (SLIIT)

2020 – present | Malabe, Sri Lanka

MOHE Student

CGPA - 2.87 (Y1,Y2)

Physical Science Stream

Zahira College Kalmunai

2016 – 2018 | kalmunai, Sri Lanka

- Chemistry - C
- Combined Maths - C
- Physics - S
- GIT - A

📁 PROJECTS

Hotel Management System (MERN STACK) 3rd Year

This project is basically designed on a Hotel management system . The System is mainly categorized in to four functions. The main functions are customer management, employee management, kitchen management and transportation management. This is implemented for the internal system of the motel and admin is the head of the system with privileged access. There are main roles named as customer manager, HR manager, kitchen manager and transport manager.

Dialysis App 2nd year 2nd Semester

This is a Mobile App, it is suitable for kidney patients ,

2nd Year 2ndSemester

Hospital Crowd Management System

MongoDB – document database

Express.js) – Node.js web framework

React.js) – a client-side JavaScript framework

Node.js) – the premier JavaScript web server

2nd Year 1st Semester

As a team we have successfully developed a Online Event Management System using Java concept(JSP and SERVELETS). While we developed the whole system, we considered the MVC architecture. I have developed a CRUD function to manage bookings and display the hotels/event details with attractive CSS designs.

Point of Sale Management Mobile Application

Internship at South Eastern University of Srilanka

Java , Kotlin
